BOOK AMBULANCE

AR Based Disease Pointer

We are introducing a new feature of AR Based Disease Pointer , It looks for patients report and highlights those infected areas which needs special medical attention.

AR Anatomy

It is very difficult to visualise anatomy images, therefore we are introducing ar based anatomy, it will help user to view images in 3D and understand better.

AR Based First-Aid Training

Everyone should know basic first-aid, as it can be needed anytime in emergency. We are providing AR based first-aid training service.

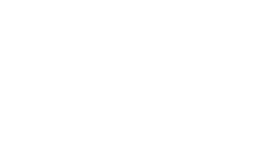

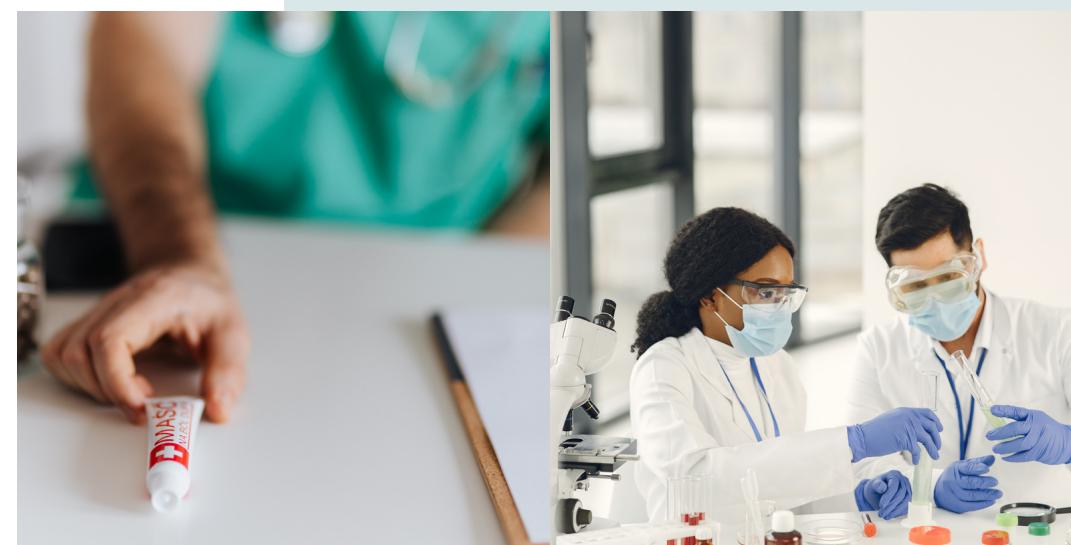

Bed Booking

The lack of information of no.of available beds in a hospital is a common problem. So, we have designed a page for real time available beds in a particular city.

Vaccine
tracker

Vaccines have come to be a life saver in recent times. Due to large population of country, medical services cant be taken to everyone. So we have designed a vaccine tracker which gives notification of available vaccine in your area.
